Annual subject index

abbreviated cell cycle progression
induction by serine/threonine protein phosphatase inhibitor okadaic acid at concentrations that promote neoplastic transformation 1163
aberrant cell cycle checkpoint function
transformed hepatocytes and WB-F344 hepatic epithelial stem-like cells 1257
aberrant crypt foci
induction by azoxymethane, effect of galacto-oligosaccharides in Fischer 344 rats 127
acetaldehyde
induction of mutational spectrum in *HPRT* gene of human T lymphocytes 1825
***N*-acetyl-L-cysteine**
modulation of benzo[*a*]pyrene-induced skin tumours in cancer-prone p53 haploinsufficient Tg.AC (*v-Ha-ras*) mice 1373
***N*-acetylcysteine**
mechanisms of prevention of DNA damage 999
***N*-acetyltransferase**
association of *N*-acetyltransferase 2 with risk of oral squamous cell cancer 1993
real-time PCR analysis of *NAT1* allele polymorphism in squamous cell carcinoma of the head and neck 1405
acrolein
involvement in promotion of development of transformation by oxidative stress 935
acrylamide
applicability of multiplicative model for cancer risk assessment 817
adenylyl cyclase
uncoupling of inhibitory pathways by magnetic fields, mediation by melatonin 1a receptor in MF-sensitive MCF-7 cells 1043
adrenalectomy
reversal of AP-1 DNA binding inhibition by dietary energy restriction 1421
β-adrenergic receptor
growth regulation of human cancer cell lines derived from pancreatic ductal carcinomas 473
aflatoxin B_1
chemistry and biology, from mutational spectrometry to carcinogenesis, commentary 538
AhR
polymorphisms in the aryl hydrocarbon receptor gene in a French population, relationship with CYP1A1 inducibility and lung cancer 1819
ALA
see 5-aminolevulinate
alcohol consumption
association with risk of oral squamous cell cancer 1993
gene–environment interaction with aldehyde dehydrogenase-2 for risk of esophageal cancer 913
inverse correlation with 8-hydroxydeoxyguanosine lymphocyte levels in humans 885
alcohol dehydrogenase
alcohol dehydrogenase 3 and risk of head and neck cancer 57
polymorphisms in the alcohol dehydrogenase gene and oropharyngolaryngeal cancer, esophageal cancer and stomach cancer in Japanese alcoholics 433
aldehyde dehydrogenase
gene–environment interaction of aldehyde dehydrogenase-2 with alcohol consumption for risk of esophageal cancer 913
polymorphisms in the aldehyde dehydrogenase gene and oropharyngolaryngeal cancer, esophageal cancer and stomach cancer in Japanese alcoholics 433
2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine
early detection of mutations within the *Apc* gene in rat colon 329
influence of Mrp2 deficiency on metabolism and disposition in rats 805
inhibition of tumour formation in Apc^{min} mice by curcumin 821
intestinal toxicity and carcinogenic potential in DNA repair deficient $XPA^{-/-}$ mice 619
N-glucuronidation by specific human UDP-glucuronosyltransferases 1087
organ-dependent enhancement of 3,2′-dimethyl-4-aminobiphenyl carcinogenesis 1295
2-amino-3-methylimidazo[4,5-*f*]quinoline
β-catenin mutation in rat colon tumours, effect of post-initiation treatment with chlorophyllin and indole-3-carbinol 315
crucial role of intestinal microflora in genotoxicity of cooked food mutagen 1721
post-initiation effects of chlorophyllin and indole-3-carbinol in rats 309
***N*-OH-2-amino-3-methylimidazo[4,5-*f*]quinoline-*N*-glucuronide**
enhancement of urinary excretion by green tea in F344 rats 1095
3-amino-1,4-dimethyl-5*H*-pyrido[4,3-*b*]indole
induction of apoptosis via caspase-9 in primary cultured rat hepatocytes 693
5-aminolevulinate
high efficiency of photodynamic treatment using UV radiation 879
δ-aminolevulinic acid
induction of porphyrins, mediation of photodynamic DNA damage 771
androgen receptor
inhibition of expression and function by quercetin in LNCaP prostate cancer cells 409
inhibition of function by reduction of nuclear localization of the receptor in human prostate cancer 1399
quantitation of gene expression in sporadic breast tumours by real-time RT–PCR 1521
AP-1
inhibition of DNA binding by dietary energy restriction, reversed by adrenalectomy 1421
***Apc* gene**
early detection of 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine-induced mutations in rat colon 329
APE1
association of amino acid substitution variants with ionizing radiation sensitivity 917
apoptosis
activation in MDA-MB-468 cells by N^{ω}-hydroxy-L-arginine is not solely dependent on reduction in intracellular polyamines 1863
attenuation by overexpression of Bcl-2 1633
induction by 3-amino-1,4-dimethyl-5*H*-pyrido[4,3-*b*]indole via caspase-9 in primary cultured rat hepatocytes 693
induction by butyrate, inhibition by insulin-like growth factor-II in human colon cancer cells 1625
induction by cyclooxygenase inhibitors in colorectal tumour cells 17
induction by deoxycholic acid, activation and role of mitogen-activated protein kinase 35
induction by excessive base excision repair of 5-hydroxymethyluracil in Chinese hamster V79 cells 179
induction by inhibition of 12-lipoxygenase in human gastric cancer cells 1349
induction by non-steroidal anti-inflammatory drugs in gastric cancer cells through up-regulation of bax and bak 1393
induction by overexpression of retinoic acid receptors alpha and gamma in neoplastic epidermal cells 1955
induction by peroxisome proliferator-activated receptor in HT-29 human colon cancer cells 1379
induction by Se-methylselenocysteine through caspase activation in HL-60 cells 559
induction by transforming growth factor-β1 447
induction of sensitivity by *ras* oncogene expression 1385
inhibition by IL-6 in human gastric cancer AGS cells 1947
inhibition in rat hepatocytes treated with polychlorinated biphenyls 1601
initiation by DNA double-strand breaks in p53-deficient fibroblasts 579
mediation of p53-independent apoptosis by tachypyridine 1607
modulation by cigarette smoke and cancer chemopreventive agents in rat respiratory tracts 375
modification of resistance by curcumin 821
stimulation by prebiotic chicory fructans in rat colon 43
Areca nut/arecoline
induction of cell cycle arrest but not apoptosis in cultured oral KB epithelial cells 1527
arginine
preferential selection of polymorphism by Arg72 in cancers with recessive p53 mutants but not transdominant mutants 515
role of Arg216 in catalytic activity of murine Alpha class glutathione transferases mGSTA1-1 and mGSTA2-2 towards carcinogenic diol epoxides 1301
aristolochic acid
sequence-specific detection of DNA adducts in human *p53* gene by terminal transferase-dependent PCR 133

© Oxford University Press

aromatic amines
prediction of rodent carcinogenicity 1561
arsenite
inhibition of pyrimidine dimer excision, involvement of nitric oxide 709
aryl hydrocarbon receptor
polymorphisms in the aryl hydrocarbon receptor gene in a French population, relationship with CYP1A1 inducibility and lung cancer 1819
signalling plays a significant role in mediation of cytogenetic damage *in vivo* 171
ascorbate
suppression of mutagenesis in mismatch repair deficient human colon cancer cells 1709
AT
see ataxia telangiectasia
ataxia telangiectasia
gene amplification in fibroblasts 141
ataxia telangiectasia mutated
see ATM kinase
Atm
heterozygosity for mutation does not increase susceptibility to ENU-induced mammary tumours in *Apc* 343
ATM kinase
reduction of activity by DNA damage in carcinogen-induced preneoplastic hepatic lesions in rats 2023
azoxymethane
anatomical site-specific response to DNA damage related to late tumour development in rat colon carcinogenesis model 1831
induction of aberrant crypt foci/colorectal cancer, effect of galacto-oligosaccharides in Fischer 344 rats 127
induction of colon carcinogenesis, inhibition by citrus limonoids in F344 rats 193
induction of intestinal carcinogenesis, no modification by slow-release pellets of sodium butyrate in F344 rats 525

B cell translocation gene 2
post-transcriptional down-regulation of protein in prostate carcinogenesis 1271
bak
induction of apoptosis by non-steroidal anti-inflammatory drugs in gastric cancer cells through up-regulation 1393
basal cell carcinoma
correlations with polymorphisms of DNA repair gene *XPD* 899
base excision repair
a network of defence and tolerance 987
induction of apoptosis in Chinese hamster V79 cells 179
rates are not solely dependent on levels of initiating enzymes 387
base excision repair enzymes
counteracting spontaneous transformation via overexpression of rate-limiting enzymes 1335
bax
differential induction of gene expression by 3,4,5,4′-tetrahydroxystilbene 321
induction of apoptosis by non-steroidal anti-inflammatory drugs in gastric cancer cells through up-regulation 1393
bay region diol epoxides
tumorigenicity on mouse skin 951
Bcl-2
attenuation of apoptosis by inhibition of caspase-3 activity 1633
benzo[*a*]pyrene
differential metabolism of human cytochrome P450 1A1 variants 453
induction of cytogenetic damage *in vivo*, mediation by aryl hydrocarbon receptor signalling 171
induction of homologous recombination in mice, susceptibility of proliferating cells 641
rapid alveolar absorption in lung cancer 741
benzo[*a*]pyrene diol epoxide
increase in DNA single-strand breaks and *supF* gene mutations by presence of adducts in target DNA 1231
reduction of DNA adducts of 463A variant of myeloperoxidase in skin of coal tar treated patients 1015
benzo[*a*]pyrene-7,8-dihydrodiol
differential metabolism of human cytochrome P450 1A1 variants 453
berry extracts
inhibition of cellular transformation in the Syrian hamster embryo cell transformation model 351
beta-carotene
induction of cytochrome P450 and over-generation of oxygen radicals in rats 1483
interactions with cigarette smoke in human bronchial epithelial cells 1173
betel quid chewing
p53 mutation characteristics in oral squamous cell carcinoma in Taiwanese 1497
BHP
see *N*-nitrosobis(2-hydroxypropyl)amine
***N*-bis(2-hydroxypropyl)nitrosamine**
initiation of thyroid tumours, promotion of development by xylazine in rats 613
bladder cancer
screening for mutations and loss of heterozygosity of mitotic checkpoint genes 813
brca1
heterozygosity for mutation does not increase susceptibility to ENU-induced mammary tumours in *Apc* 343
BRCA1/BRCA2
mutation analysis of monozygotic twins concordant for breast cancer 27
breast cancer
allelic imbalance on chromosomes 13 and 17 and mutation analysis of *BRCA1* and *BRCA2* of monozygotic twins 27
association with *COMT* genotype and folate metabolic pathway 1661
association with manganese superoxide dismutase gene polymorphism 827
chemopreventive effects of prostaglandin E receptor antagonist ONO-8711 2001
correlation of neoplastic transformation with frequent allelic imbalance on chromosomes 6 and 17 in human breast epithelial cells 1685
growth inhibitory effects of diallyl disulfide on human cell lines 891
inhibition of signalling pathways in invasiveness and metastatic properties of highly invasive cell lines by cerivastatin 1139
no association with *CYP1A1* polymorphisms and smoking 1797
polymorphic variation in *CYP19* 347
risk assessment in first degree female relatives of patients using Comet assay, letter to the editor 679
stimulation of growth of estrogen-dependent tumours by dietary genistin 1667
bronchial epithelial cells
interactions with beta-carotene and cigarette smoke 1173
BTG2
see B cell translocation gene 2
buccal mucosa
expression of cytochrome P450 and related metabolism 481
1,3-butadiene
human sensitivity and role of microsomal epoxide hydrolase polymorphisms 415
butyrate
enhancement of growth inhibitory effect by mevastatin in colorectal carcinoma cell line Caco-2 1061
induction of apoptosis, inhibition by insulin-like growth factor-II in human colon cancer cells 1625
protective activity on oxidative DNA damage in isolated human colonocytes and HT29 tumour cells 1675
bystander signal
individual variation in production following irradiation of primary cultures of normal human urothelium 1465

c-*fos*
stimulation of mRNA expression by estrogens in primary rat hepatocytes 1473
c-Jun
suppression of expression by restoration of retinoic acid concentration in rat liver 1213
c-Jun N-terminal kinase
no inhibition by dietary energy restriction activity in epidermis of SENCAR mice 607
c-myc protein
co-overexpression with DEAD box protein rck/p54 in human colorectal adenomas and relevance of expression in cultured cell lines 1965
calcium
inhibition of dietary haem-induced colonic cytotoxicity and epithelial hyperproliferation 1653
camptothecin
hypersensitivity in MSH2 deficient cells is correlated with a role for MSH2 protein in recombination 1781

cancer prevention
new paradigms, commentary 691
caspase
activation of caspase-3 in MDA-MB-468 cells by N^{ω}-hydroxy-L-arginine not solely dependent on reduction in intracellular polyamines 1863
induction of apoptosis by Se-methylselenocysteine in HL-60 cells 559
inhibition of caspase-3 activity by overexpression of Bcl-2 1633
caspase-9
induction of apoptosis by 3-amino-1,4-dimethyl-5*H*-pyrido[4,3-*b*]indole in primary cultured rat hepatocytes 693
catechol
induction of oxidative DNA damage 1239
catechol estrogen
conjugates and DNA adducts in kidney of male Syrian golden hamsters treated with 4-hydroxyestradiol, potential biomarkers for estrogen-initiated cancer 489
catechol estrogen metabolites
implications for initiation of mammary tumour 1573
β-catenin
induction of predominant mutation of codon 41 of proto-oncogene in rat colon tumours by 1,2-dimethylhydrazine using a complete carcinogenic protocol 1885
alterations in rat liver tumours induced by 4-methylnitrosamino-1-(3-pyridyl)-1-butanone 461
mutation in rat colon tumours initiated by 1,2-dimethylhydrazine and 2-amino-3-methylimidazo[4,5-*f*]quinoline, effect of post-initiation treatment with chlorophyllin and indole-3-carbinol 315
CCND1
association of cyclin D1 genotype with tumour grade 1801
cell cycle arrest
induction by Areca nut and arecoline in cultured oral KB epithelial cells 1527
induction by transforming growth factor-β1 447
induction by UV radiation at late G_1 in mammalian cells, involvement of p53 573
cellular transformation
inhibition by berry extracts in the Syrian hamster embryo cell transformation model 351
cerivastatin
inhibition of signalling pathways in invasiveness and metastatic properties of highly invasive breast cancer cell lines 1139
checkpoint kinase 2
case–control analysis of polymorphic codon 84 allele in squamous cell carcinoma of the head and neck 2005
chloroform
effect on dichloroacetic acid/trichloroacetic acid-induced hypomethylation and promotion of liver and kidney tumours in mice 1511
chlorophyllin
β-catenin mutation in rat colon tumours initiated by β-catenin and 1,2-dimethylhydrazine 315
post-initiation effects in rats given 1,2-dimethylhydrazine and 2-amino-3-methyl-imidazo[4,5-*f*]quinoline 309
chromium(VI)
mechanisms of p52 activation, role of phosphorylation, mdm2 and ERK 757
chromosome 11
allelotypes reflect a mechanism of chemical carcinogenesis in heterozygous p53-deficient mice 89
cigarette smoke
interactions with β-carotene in human bronchial epithelial cells 1173
modulation of apoptosis in rat respiratory tracts 375
cigarette smoke condensate
induction of cytogenetic damage *in vivo*, mediation by aryl hydrocarbon receptor signalling 171
citrus limonoids
inhibition of colon carcinogenesis in F344 rats 193
Cl4HQ
see tetrachlorohydroquinone
Coal tar
effect of a complex environmental mixture containing polycyclic aromatic hydrocarbons on tumour initiation 1077
COL11A1/COL5A2
association of stromal expression with colorectal carcinogenesis 875
colon cancer
induction by 1,2-dimethylhydrazine, association with chronic infection of *Trypanosoma cruzi* 737
inhibition of dietary haem-induced colonic cytotoxicity and epithelial hyperproliferation by calcium 1653
colon carcinogenesis
indication of possible caretaker role for DNA-dependent protein kinase in high susceptibility of Scid mice 1551
induction by azoxymethane, inhibition by citrus limonoids in F344 rats 193
induction of cell invasiveness by hepatocyte growth factor via enhanced motility and protease overproduction 1035
inhibition by wheat germ extract in F344 rats 1649
colonic *N*-nitrosation
dose-dependent effect of dietary meat 199
colorectal cancer
association of *CYP2C9* genotypes leading to high enzyme activity 1323
induction by azoxymethane, effect of galacto-oligosaccharides in Fischer 344 rats 127
interaction between glutathione *S*-transferase gene polymorphisms *GSTM1* and *GSTM3* as a risk modulating factor 1053
interleukin-10-deficient mice and inflammatory bowel disease associated cancer development 665
colorectal carcinogenesis
association with stromal expression of *COL11A1* and *COL5A2* 875
colorectal carcinoma
regulation of 15-lipoxygenase-1 expression by histone acetylation in humans 187
colorectal hyperproliferation
characterization of vitamin D receptor knockout mouse 1429
colorectal tumours
altered cyclooxygenase-2 and cyclooxygenase-1 splice variant mRNA expression levels by non-steroidal anti-inflammatory drugs 869
Comet assay
risk assessment in first degree female relatives of breast cancer patients, letter to the editor 679
Commentary
chemistry and biology of aflatoxin B_1, from mutational spectrometry to carcinogenesis 538
involvement of p53 in DNA damage through sequence-specific and non-sequence-specific DNA binding 851
new paradigms of cancer prevention 691
patterns of G→T transversions in lung cancer reflect the primary mutagenic signature of DNA damage by tobacco smoke 367
reappraisal of potential chemopreventive and chemotherapeutic properties of resveratrol 1111
single nucleotide polymorphisms, metabolic activation and environmental carcinogenesis, why molecular epidemiologists should think about enzyme expression 209
understanding the genotoxicity of tamoxifen 839
***COMT* genotype**
association with risk of breast cancer 1661
connexins
inhibition of proliferation of glioma cell lines by connexin30 507
phosphorylation and inhibition of gap junctional intercellular communication in 12-tetradecanoylphorbol-13-acetate by connexin43 221
reduction of malignant phenotype of HepG2 associated with connexin26 but not connexin32 1593
Copenhagen rats
resistance to hepatocarcinogenesis, no involvement of T-cell immunity 357
coumarins
reduced formation of DNA adducts with polycyclic aromatic hydrocarbons in SENCAR mice by oral administration 73
COX-1
carcinogen substrate specificity in humans 5
COX-2
carcinogen substrate specificity in humans 5
inhibition by peroxisome proliferator-activated receptor in HT-29 human colon cancer cells 1379
crocidolite asbestos
changes in DNA 8-hydroxyguanine levels and repair activity in human lung alveolar cells 265
cruciferous vegetables
effect of consumption on metabolism of heterocyclic amines in humans 1413
curcumin
lack of chemopreventive effects on experimental rat prostate carcinogenesis 467

modification of apoptosis resistance/inhibition of 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine induced tumour formation in APC^{min} mice 821
cyclin D1
association of *CCND1* genotype with tumour grade in sporadic pituitary adenomas 1801
association of polymorphism with risk for squamous cell carcinoma of the head and neck 1195
expression in esophageal carcinomas following administration of 2,6-dimethylnitrosomorpholine in rats 271
cyclooxygenase inhibitors
induction of apoptosis and growth inhibition in colorectal tumour cells 17
cyclooxygenase-1
altered splice variant mRNA expression levels by non-steroidal anti-inflammatory drugs in rat colorectal tumours 869
cyclooxygenase-2
altered splice variant mRNA expression levels by non-steroidal anti-inflammatory drugs in rat colorectal tumours 869
pyrimidopurinone adducts of deoxyguanosine in human colon cells 1557
cytochrome P450
1A2 variant and risk of lung cancer, preliminary study among Chinese women in Singapore 673
association of CYP2C9 genotypes leading to high enzyme activity and colorectal cancer risk 1323
CYP1A1 polymorphism and risk of lung cancer in relation to tobacco smoking, case–control study in China 11
CYP1A1 polymorphisms and smoking, no association with breast cancer risk 1797
differential effects of oltipraz on CYP1A and CYP2B in rat lung 49
differential metabolism of 1A1 variants by benzo[*a*]pyrene and benzo[*a*]pyrene-7,8-dihydrodiol 453
effects of genetic polymorphisms on urinary concentrations of 1-hydroxypyrene and 2-naphthol 787
expression and related metabolism in human buccal mucosa 481
induction in rats supplemented with beta-carotene 1483
induction of CYP1B1 in lung, liver and kidney of rats exposed to diesel exhaust particle extracts 2033
isolation and sequencing of cDNA from rat esophagus 155
modulation of expression by steroid hormones in male hamster reproductive tract and leiomyosarcomas 763
polymorphic variation of CYP19 and risk of breast cancer 347
predominant 4-hydroxylation of estradiol in female ACI rat liver 257
relationship of CYP1A1 with aryl hydrocarbon receptor gene polymorphisms in a French population 1819
relevance of rat esophageal monooxygenase system in *N*-nitrosodiethylamine carcinogenesis 1877
cytotoxic anticancer agents
cellular response and overexpression of hMSH3 gene 1131

DCA
see dichloroacetic acid
DEAD box protein
co-overexpression of rck/p54 and c-myc protein in human colorectal adenomas and relevance of expression in cultured cell lines 1965
dehydroepiandrosterone
enhancement of hepatocarcinogenesis by long-term administration in diethylnitrosamine-initiated rats 301
deoxycholic acid
induction of apoptosis, activation and role of mitogen-activated protein kinase 35
suppression of p53 by stimulation of proteasome-mediated p53 protein degradation 957
***N*-(deoxyguanosin-8-yl)-4-aminobiphenyl**
role of *TP53* in repair of adducts in transitional cell carcinoma of the urinary bladder 147
deoxyguanosine
cyclooxygenase-2, malondialdehyde and pyrimidopurinone adducts in human colon cells 1557
DFMO
see difluoromethylornithine
diallyl disulfide
effects on metabolism, adherence and cell cycle of HT-29 colon carcinoma cells 1155
growth inhibitory effects on human breast cancer cell lines 891
dibenz[*a*,*h*]acridine
tumorigenicity of racemic and optically pure bay region diol epoxides on mouse skin 951
dibenzo[*a*,*l*]pyrene
effects of (–)-anti-11*R*,12*S*-dihydrodiol 13*S*,14*R*-epoxide on formation of DNA adducts and cell cycle arrest in human diploid fibroblasts 161
dichloroacetic acid
detection of early gene expression changes by differential display in mouse liver 1317
effect of chloroform on hypomethylation and promotion of liver and kidney tumours in mice 1511
diesel exhaust particle extracts
induction of CYP1B1 in lung, liver and kidney of rats 2033
diesel soot
rapid alveolar absorption of benzo[*a*]pyrene 741
dietary energy restriction
inhibition of AP-1 DNA binding, reversal by adrenalectomy 1421
***N*,*N*-diethylnitrosamine**
induction of hepatocarcinogenesis, suppression by *little* mutation in mice 1853
difluoromethylornithine
prevention and therapeutic effect against UV carcinogenesis in SKH hairless mice 83
7,8-dihydro-8-oxoguanine-DNA glycosylase
age-related and tissue-specific accumulation of oxidative DNA damage in Ogg1-deficient mice 1459
3,3′-diindolylmethane
cytostatic effects in endometrial cancer cells result from estrogen receptor-mediated increase in transformation growth factor-α expression 1809
7,12-dimethylbenz[*a*]anthracene
lack of promotion of mouse skin carcinogenesis by 1.5 GHz electromagnetic fields 1837
7,12-dimethyl-1,2-benz[*a*]anthracene
induction of toxic and mutagenic responses between nucleotide excision repair-deficient *Xpa*, *Xpc* and *Csb* mice 1099
3,2′-dimethyl-4-aminobiphenyl
organ-dependent enhancement of carcinogenesis by 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine 1295
1,2-dimethylhydrazine
β-catenin mutation in rat colon tumours, effect of post-initiation treatment with chlorophyllin and indole-3-carbinol 315
induction of colon cancer, association with chronic infection of *Trypanosoma cruzi* 737
induction of predominant mutation of codon 41 of proto-oncogene in rat colon tumours using a complete carcinogenic protocol 1885
post-initiation effects of chlorophyllin and indole-3-carbinol in rats 309
2,6-dimethylnitrosomorpholine

^{32}P-DNA adducts
association with DNA repair genes and smoking in a sample of healthy subjects 1437
DNA adducts
biomarkers of genotoxicity of air pollution 1447
catechol estrogen conjugates in kidney of male Syrian golden hamsters treated with 4-hydroxyestradiol, potential biomarkers for estrogen-initiated cancer 489
effects of (–)-anti-11*R*,12*S*-dihydrodiol 13*S*,14*R*-epoxide of dibenzo[*a*,*l*]pyrene in human diploid fibroblasts 161
formation and mutant induction in Sprague–Dawley rats treated with tamoxifen and its derivatives 1307
immunohistochemical localization and semi-quantitation in rats exposed orally to tamoxifen 1693
induction by four catechol estrogens of 17β-estradiol and estrone in Syrian hamster embryo fibroblasts 1505
reduced formation with polycyclic aromatic hydrocarbons by oral administration of coumarins in SENCAR mice 73
reduction of 463A variant of myeloperoxidase in skin of coal tar treated patients 1015
DNA damage
anatomical site-specific response related to late tumour development in rat azoxymethane colon carcinogenesis model 1831
assessment of individual sensitivity to ionizing radiation by RNA expression 1179
characterization of vitamin D receptor knockout mouse 1429
induction by sulfur mustard, repair in mammalian cells measured by host cell reactivation assay 661

induction by tetrachlorohydroquinone in human HeLa S3 tumour cells 635
involvement of p53 through sequence-specific and non-sequence-specific DNA binding, commentary 851
mechanisms of prevention by *N*-acetylcysteine 999
mechanisms of tolerance to DNA damaging therapeutic drugs 1931
reduction of ATM kinase activity in carcinogen-induced preneoplastic hepatic lesions in rats 2023
short-term dosing of α-hydroxytamoxifen does not lead to liver tumours in female Wistar/Han rats 553

DNA double-strand breaks
initiation of apoptosis in p53-deficient fibroblasts 579

DNA hypermethylation
mechanism for loss of expression of HLA class I genes in human esophageal squamous cell carcinomas 1615

DNA incision
induction by UV radiation in repair sites of ovarian carcinoma cells 1971

DNA radicals
protection from hydroxyl radical-induced strand breaks and base damage through fast chemical repair 1189

DNA repair
involvement of nitric oxide in arsenite inhibition of pyrimidine dimer excision 709
polymorphisms in *XPD* exon 10 and 23 in human skin *in situ* 1185

DNA repair genes
association with smoking and ^{32}P-DNA adducts in a sample of healthy subjects 1437
genetic polymorphisms and risk of lung cancer 593
polymorphisms of *XPD*, correlations with risk of basal cell carcinoma 899

DNA single-strand breaks
increase by presence of benzo[*a*]pyrene diol epoxide adducts in target DNA 1231

DNA synthesis
no increase by peroxisome proliferators in purified rat hepatocytes 519
stimulation by estrogens in primary rat hepatocytes 1473

DNA-dependent protein kinase
indication of possible caretaker role in high susceptibility of Scid mice to colon carcinogenesis 1551

docosahexaenoic acid
effects on androgen-mediated cell growth and gene expression in LNCaP prostate cancer cells 1201

E2F-1
induction of modulation by lovastatin and effect on prostate cancer cell death 1727

E7
oncogenic cell transformation of papillomavirus 1069

eicosapentaenoic acid
effects on androgen-mediated cell growth and gene expression in LNCaP prostate cancer cells 1201

electromagnetic fields
lack of promotion of 7,12-dimethylbenz[*a*]anthracene-initiated mouse skin carcinogenesis by 1.5 GHz EMF 1837

EMF
see electromagnetic fields

endometrial cancer
cytostatic effects of 3,3′-diindolylmethane result from estrogen receptor-mediated increase in transformation growth factor-α expression 1809

endometrial carcinogenesis
induction by *N*-methyl-*N*-nitrosourea and estradiol-17β, preventive effects of *Juzen-taiho-to* in mice 587

endometriosis
susceptibility of *GSTM1* null polymorphism 63

environmental carcinogenesis
why molecular epidemiologists should think about enzyme expression, commentary 209

environmental tobacco smoke
DNA adducts and polycyclic aromatic hydrocarbons as biomarkers of genotoxicity of air pollution 1447

(–)-epigallocatechin-3-gallate
inhibition of ultraviolet radiation-induced oxidative stress in human skin 287

esophageal adenocarcinoma
review and perspectives on the mechanism of carcinogenesis and chemoprevention 1119

esophageal cancer
alcohol dehydrogenase and aldehyde dehydrogenase gene polymorphisms in Japanese alcoholics 433
gene–environment interaction between aldehyde dehydrogenase-2 and alcohol consumption 913
human papillomavirus type 16 is an important infectious factor in the Anyang area of China 929
isolation and sequencing of cDNA of a novel cytochrome P450 from rat esophagus 155

esophageal carcinomas
expression of cyclin D1 and p53 following administration of 2,6-dimethylnitrosomorpholine in rats 271

esophageal squamous cell carcinomas
DNA hypermethylation is a mechanism for loss of expression of HLA class I genes in humans 1615
etiology and chemoprevention 1737

esophageal tumorigenesis
induction by *N*-nitrosomethylbenzylamine, suppression by JTE-522 in F344 rats 547

estradiol
predominant 4-hydroxylation by cytochrome P450 in female ACI rat liver 257

17β-estradiol
induction of DNA adducts by four catechol estrogens in Syrian hamster embryo fibroblasts 1505
induction of endometrial carcinogenesis, preventive effects of *Juzen-taiho-to* in mice 587

estrogens
analysis of potential biomarkers of cancer in urine of Syrian golden hamsters treated with 4-hydroxyestradiol 905
stimulation of DNA synthesis and c-*fos* mRNA expression in primary rat hepatocytes 1473

estrone
induction of DNA adducts by four catechol estrogens in Syrian hamster embryo fibroblasts 1505

extracellular signal-related protein kinase
inhibition by dietary energy restriction activity in the epidermis of SENCAR mice 607

Fanconi anemia
Chinese hamster *FANCG/XRCC9* mutant NM3 fails to express the monoubiquitinated form of FANCD2 protein 1939

fatty acids
changes in patterns associated with normal liver regeneration and progression of hepatocyte nodules 795
regulation of gene expression and growth of human prostate cancer PC-3 cells 701

***FHIT* gene**
induction of alterations in lung adenocarcinomas by *N*-nitrosobis(2-hydroxypropyl)amine in rats 2017

16α-fluoro-5-androsten-17-one
enhancement of hepatocarcinogenesis by long-term administration in diethylnitrosamine-initiated rats 301

folate metabolic pathway
association with risk of breast cancer 1661

fructans
stimulation of apoptosis in rat colon 43

G_1/S regulators
aberrant expression is a frequent event in sporadic pituitary adenomas 1149

galacto-oligosaccharides
effect on aberrant crypt foci and colorectal cancer in Fischer 344 rats 127

gap junctional intercellular communication
disruption by lindane associated with aberrant localization of connexin43 and zonal occludens-1 in 42GPA9 Sertoli cells 1537
inhibition by PKC and MAP kinase in rat liver epithelial cells 1543
inhibition in 12-tetradecanoylphorbol-13-acetate-exposed R6 fibroblasts 221
inhibition of proliferation of glioma cell lines by rat gap junction connexin30 507

genistin
stimulation of growth of estrogen-dependent breast cancer tumours 1667

GGT
see γ-glutamyl transpeptidase

γ-glutamyl transpeptidase
investigation in non-tumorigenic and tumorigenic rat liver oval cell lines 2009
glutathione
inactivation of representative members of PKC and PKD by tumour-promotion and progression antagonist but not by its precursor cysteine 1221
induction by intracellular accumulation of dietary isothiocyanates 1987
investigation of biosynthesis in non-tumorigenic and tumorigenic rat liver oval cell lines 2009
glutathione *S*-transferase
association of μ1 null genotype with K-*ras* gene mutation in lung adenocarcinoma among smokers 1327
effects of genetic polymorphisms on urinary concentrations of 1-hydroxypyrene and 2-naphthol 787
genetic polymorphisms of M1 and T1 with susceptibility to hepatocellular carcinoma among chronic hepatitis B carriers 1289
interaction between gene polymorphisms *GSTM1* and *GSTM3* as a risk modulating factor in colorectal cancer 1053
polymorphisms at the *GSTM1*, *GSTT1* and *GSTP1* loci, risk of ovarian cancer by histological subtype 67
glutathione transferases
role of arginine 216 in catalytic activity of murine Alpha class mGSTA1-1 and mGSTA2-2 towards carcinogenic diol epoxides of polycyclic aromatic hydrocarbons 1301
green tea
enhancement of urinary excretion of *N*-OH-2-amino-3-methyl-imidazo[4,5-*f*]quinoline-*N*-glucuronide in F344 rats 1095
inhibition of mutagenesis in *lacZ* upper aerodigestive tissue and liver 203
green tea catechins
protection from hydroxyl radical-induced strand breaks and base damage through fast chemical repair 1189
***GSTM1* null polymorphism**
susceptibility to endometriosis and ovarian cancer 63

HBO
see hyperbaric oxygen
head and neck cancer
alcohol dehydrogenase 3 genotype 57
Helicobacter hepaticus
lobe-specific increases in malondialdehyde DNA adduct formation in mouse liver following infection 1281
heme oxygenase-1
involvement in adaptive protection of human lymphocytes after treatment with hyperbaric oxygen 1979
hepatitis B
genetic polymorphisms of glutathione *S*-transferase M1 and T1 with susceptibility to hepatocellular carcinoma among chronic carriers 1289
hepatocarcinogenesis
changes in essential fatty acid patterns associated with normal liver regeneration and progression of hepatocyte nodules 795
enhancement by long-term administration of dehydroepiandrosterone and 16α-fluoro-5-androsten-17-one in diethylnitrosamine-initiated rats 301
genetic polymorphisms of glutathione *S*-transferase M1 and T1 with susceptibility to hepatocellular carcinoma among chronic hepatitis B carriers 1289
induction by *N*,*N*-diethylnitrosamine, suppression by *little* mutation in mice 1853
resistance of Copenhagen rats, no involvement of T-cell immunity 357
hepatocellular carcinoma
genetic polymorphisms of glutathione *S*-transferase M1 and T1 with susceptibility to hepatocarcinogenesis among chronic hepatitis B carriers 1289
hepatocellular proliferation
no requirement for tumour necrosis factor-α in response to a peroxisome proliferator 1843
hepatocyte growth factor
evidence that reduction is not required for peroxisome proliferator-induced hepatocyte proliferation 975
induction of colonic cancer cell invasiveness via enhanced motility and protease overproduction 1035
stimulation of hypoxia inducible factor-1 activity in HepG2 hepatoma cells 1363
hepatocyte proliferation
induction by peroxisome proliferator, no evidence of requirement for hepatocyte growth factor reduction 975
suppression by restoration of retinoic acid concentration in rat liver 1213
HepG2
reduction of malignant phenotype associated with connexin26 but not connexin32 1593
heterocyclic amines
assessment in colon adenocarcinomas 1681
effect of consumption of cruciferous vegetables on metabolism in humans 1413
HGF

high mobility group A* proteins
role in lipomas in humans 1583
histone acetylation
regulation of 15-lipoxygenase-1 expression in human colorectal carcinoma 187
HLA class I genes
DNA hypermethylation is a mechanism for loss of expression in human esophageal squamous cell carcinomas 1615
HMG-CoA reductase
see 3-hydroxy-3-methylglutaryl-coenzyme A reductase
HMGA
see high mobility group A* proteins
HMGI-C gene
expression not required for *in vivo* thyroid cell transformation 251
hMSH3
overexpression and cellular response to cytotoxic anticancer agents 1131
HMTH1 mRNA expression
changes induced by crocidolite asbestos in human lung alveolar cells 265
HO-1
see heme oxygenase-1
HOGG1 mRNA expression
changes induced by crocidolite asbestos in human lung alveolar cells 265
homologous recombination
induction by benzo[*a*]pyrene in mice, susceptibility of proliferating cells 641
hormonal carcinogenesis
letter to the editor 529
host cell reactivation assay
repair of DNA damage in mammalian cells 661
***HPRT* gene**
induction of mutational spectrum by acetaldehyde in human T lymphocytes 1825
HPV
see human papillomavirus
HT-29 colon carcinoma cells
effects of diallyl disulfide on metabolism, adherence and cell cycle 1155
human papillomavirus
important infectious factor in high incidence of esophageal cancer in Anyang area of China 929
3-hydroxy-3-methylglutaryl-coenzyme A reductase
inhibition by mevastatin in colorectal carcinoma cell line Caco-2 1061
***N*$^{(\omega)}$hydroxy-L-arginine**
activation of caspase-3 and apoptosis in MDA-MB-468 cells is not solely dependent on reduction in intracellular polyamines 1863
***N*-hydroxy-PhIP**
N-glucuronidation by specific human UDP-glucuronosyltransferases 1087
8-hydroxydeoxyguanosine
inverse correlation between lymphocyte levels and alcohol consumption in humans 885
4-hydroxyestradiol
analysis of potential biomarkers of estrogen-initiated cancer in urine of Syrian golden hamsters 905
catechol–estrogen conjugates and DNA adducts in kidney of male Syrian golden hamsters, potential biomarkers for estrogen-initiated cancer 489
8-hydroxyguanine
changes in DNA levels and repair activity induced by crocidolite asbestos in human lung alveolar cells 265
suppression of G:C→T:A mutation by OGG1 protein in a shuttle vector in human cells 1355
hydroxyl radical
protection from strand breaks and base damage by green tea catechins through fast chemical repair of DNA radicals 1189

5-hydroxymethyluracil
induction of apoptosis by excessive base excision repair in Chinese hamster V79 cells 179
1-hydroxypyrene
effects of genetic polymorphisms of cytochrome P450 and glutathione *S*-transferase on urinary concentrations 787
α-hydroxytamoxifen
short-term dosing results in DNA damage but does not lead to liver tumours in female Wistar/Han rats 553
hyperbaric oxygen
involvement of heme oxygenase-1 in adaptive protection of human lymphocytes 1979
hypoxia inducible factor-1
stimulation by hepatocyte growth factor signalling in HepG2 hepatoma cells 1363

ID-7
up-regulation during sex-hormone-induced prostate carcinogenesis in the Noble rat 965
IL-6
inhibition of apoptosis and retention of oxidative DNA lesions in human gastric cancer AGS cells 1947
indole-3-carbinol
β-catenin mutation in rat colon tumours initiated by β-catenin and 1,2-dimethylhydrazine 315
post-initiation effects in rats given 1,2-dimethylhydrazine and 2-amino-3-methyl-imidazo[4,5-*f*]quinoline 309
inflammatory bowel disease
interleukin-10-deficient mice and colorectal cancer 665
inflammatory response
resistance to melanoma metastases in mice 337
insulin-like growth factor-II
inhibition of butyrate-induced apoptosis in human colon cancer cells 1625
interleukin-8
constitutive expression by Mutatect cells has marked effect on tumour biology 243
interleukin-10
inflammatory bowel disease associated cancer development 665
intestinal carcinogenesis
induction by azoxymethane, no modification by slow-release pellets of sodium butyrate in F344 rats 525
intestinal toxicity and carcinogenic potential of the food mutagen 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine 619
intestinal microflora
crucial role in genotoxicity of cooked food mutagen 2-amino-3-methylimidazo[4,5-*f*]quinoline 1721
ionizing radiation
assessment of individual sensitivity by DNA damage related RNA expression 1179
association of sensitivity with amino acid substitution variants of *APE1* and *XRCC1* 917
IQ
see 2-amino-3-methylimidazo[4,5-*f*]quinoline
isothiocyanates
induction of Phase 2 detoxification enzymes and glutathione by intracellular accumulation 1987
molecular mechanism of rapid cellular accumulation 425
ITCs
see isothiocyanates

JTE-522
suppression of esophageal tumorigenesis in F344 rats 547
Juzen-taiho-to
preventive effects on endometrial carcinogenesis in mice 587

K-*ras* gene mutations
association with glutathione *S*-transferase μ1 null genotype in lung adenocarcinoma among smokers 1327
association with matrilysin mRNA expression in pancreatic ductal adenocarcinomas 1049

Lactobacillus casei
delayed murine carcinogenesis by enhancement of natural killer cytotoxicity 599
laryngeal carcinomas
p73 gene alterations and expression 729
leiomyosarcomas

oncogenic cell transformation by quercetin E7 and p53 1069
Parp-1
see poly(ADP-ribose) polymerase-1
PC-3 cells
regulation of gene expression and growth by fatty acids 701
PDT
see photodynamic treatment
pentachlorophenol
induction of oxidative damage by metabolites tetrachlorohydroquinone and tetrachloro-1,4-benzoquinone 627
peroxisome proliferators
induction of hepatocyte proliferation, evidence that reduction of hepatocyte growth factor is not required 975
no increase in DNA synthesis in purified rat hepatocytes 519
no requirement of hepatocellular proliferation for tumour necrosis factor-α 1843
peroxisome proliferator-activated receptors
induction of apoptosis and inhibition of COX-2 in HT-29 human colon cancer cells 1379
inhibition of growth of rat glioma cells by tetradecylthioacetic acid via PPAR-dependent and PPAR-independent pathways 1747
phase 2 detoxification enzymes
induction by intracellular accumulation of dietary isothiocyanates 1987
PhIP
see 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine
phospholipase D
association of overexpression of isozymes with neoplastic transformation and tumorigenesis in cultured murine fibroblasts 1641
photodynamic DNA damage
mediation by δ-aminolevulinic acid-induced porphyrins 771
photodynamic treatment
high efficiency using UV radiation 879
PI3
induction of colonic cancer cell invasiveness by hepatocyte growth factor via enhanced motility and protease overproduction 1035
pituitary adenomas
aberrant expression of G_1/S regulators 1149
PKC
role in connexin43 phosphorylation and gap junctional intercellular communication inhibition in rat liver epithelial cells 1543
poly(ADP-ribose) polymerase-1
increased susceptibility of knockout mice to nitrosamine carcinogenicity 1
polychlorinated biphenyls
inhibition of apoptosis in rat hepatocytes 1601
polycyclic aromatic hydrocarbons
biomarkers of genotoxicity of air pollution 1447
effect of a complex environmental mixture from coal tar on tumour initiation, PAH–DNA binding and metabolic activation of carcinogenic PAH in mouse epidermis 1077
reduced formation of DNA adducts by oral administration of coumarins in SENCAR mice 73
role of arginine 216 in catalytic activity of murine Alpha class glutathione transferases mGSTA1-1 and mGSTA2-2 towards carcinogenic diol epoxides 1301

synergistic mechanisms in carcinogenesis 1903
porphyrins
induction by δ-aminolevulinic acid, mediation of photodynamic DNA damage 771
PPARs
see peroxisome proliferator-activated receptors
pregnancy
protective effect for development of uterine leiomyoma 2049
preneoplastic cell growth
role of transforming growth factor α and prostaglandins 1247
progesterone receptor
no significant association between exon 4 Val660Leu G/T polymorphism and risk of ovarian cancer 717
proliferating cell nuclear antigen
induction of recruitment by UV radiation in repair sites of ovarian carcinoma cells 1971
proliferating cells
susceptibility to benzo[*a*]pyrene-induced homologous recombination in mice 641
prostaglandin E receptor
chemopreventive effects of ONO-8711 on breast cancer development 2001
prostaglandin *H* synthase
carcinogen substrate specificity of human COX-1 and COX-2 5
prostaglandins
role in preferential growth of preneoplastic rat hepatocytes 1247
prostate cancer
associations with skin type and polymorphism in pigmentation-related genes 1343
effects of docosahexaenoic acid and eicosapentaenoic acid on androgen-mediated cell growth and gene expression in LNCaP cells 1201
induction E2F-1 modulation by lovastatin and effect on cell death 1727
inhibition of androgen receptor function by reduction of nuclear localization of the receptor in human cell line LNCaP by silymarin 1399
inhibition of expression and function of androgen receptor in LNCaP cells by quercetin 409
lack of chemopreventive effects of lycopene and curcumin on experimental rat prostate carcinogenesis 467
overexpression of 15-lipoxygenase-1 in PC-3 human cells increases tumorigenesis 1765
regulation of gene expression and growth of human PC-3 cells by fatty acids 701
stimulation of generation of reactive oxygen species by prostate specific antigen and testosterone 1775
prostate carcinogenesis
post-transcriptional down-regulation of B cell translocation gene 2 protein 1271
up-regulation of TRPM-2 MMP-7 and ID-7 in the Noble rat 965
prostate specific antigen
stimulation of generation of reactive oxygen species in prostate cancer cells 1775
protein kinase
association of reduced DNA-dependent activity with lung cancer 723
protein kinase C
induction of colonic cancer cell invasiveness by hepatocyte growth factor via enhanced motility and protease overproduction 1035
protein kinases
inactivation of representative members of PKC and PKD by tumour-promotion/progression antagonist glutathione but not by its precursor cysteine 1221
pyrimidine dimer excision
inhibition by arsenite, involvement of nitric oxide 709
pyrimidopurinone adducts
investigation in human colon cells 1557

quercetin
inhibition of expression and function of androgen receptor in LNCaP prostate cancer cells 409
oncogenic cell transformation of papillomavirus 1069

radiation
individual variation in production of bystander signal following irradiation of primary cultures of normal human urothelium 1465
radio frequency radiation
lack of effect of 94 GHz RFR in an animal model of skin carcinogenesis 1701
***ras* oncogene**
induction of sensitivity for apoptosis 1385
rck/p54
co-overexpression of DEAD box protein with c-myc protein in human colorectal adenomas and relevance of expression in cultured cell lines 1965
reactive oxygen species
stimulation of generation by prostate specific antigen and testosterone in prostate cancer cells 1775
real-time RT–PCR
quantitation of androgen receptor gene expression in sporadic breast tumours 1521
red meat
inhibition of dietary haem-induced colonic cytotoxicity and epithelial hyperproliferation by calcium 1653
resveratrol
differential induction of p53 and Bax gene expression by 3,4,5,4′-tetrahydroxystilbene 321
reappraisal of potential chemopreventive and chemotherapeutic properties, commentary 1111
retinoic acid
suppression of c-Jun expression and hepatocyte proliferation by restoration of concentration 1213
retinoic acid receptors
induction of apoptosis and growth arrest by overexpression in neoplastic epidermal cells 1955
RFR
see radio frequency radiation

S phase delay
increase in a UVC-irradiated xeroderma pigmentosum variant 233
SCC
see esophageal squamous cell carcinoma
Se-methylselenocysteine
induction of apoptosis through caspase activation in HL-60 cells 559
serine/threonine protein phosphatase inhibitor
induction of abbreviated cell cycle progression by okadaic acid at concentrations that promote neoplastic transformation 1163
silymarin
inhibition of androgen receptor function by reduction of nuclear localization of the receptor in human prostate cancer cell line LNCaP 1399
single nucleotide polymorphisms
why molecular epidemiologists should think about enzyme expression, commentary 209
skin tumorigenesis
age-dependent transgene expression in Tg.AC transgenic mouse 651
Smad signaling
induction by transforming growth factor-β1 447
smoking
association with DNA repair genes and ^{32}P-DNA adducts in a sample of healthy subjects 1437
association with risk of oral squamous cell cancer 1993
multi-biomarker approach to study the effects on oxidative DNA damage and repair and antioxidative defense mechanisms 395
sodium butyrate
no modification of intestinal carcinogenesis by slow-release pellets in F344 rats 525
sporadic breast tumours
quantitation of androgen receptor gene expression by real-time RT–PCR 1521
sporadic pituitary adenomas
association of cyclin D1 *CCND1* genotype with tumour grade 1801
squamous cell carcinoma of the head and neck
association of risk with cyclin D1 polymorphism 1195
case–control analysis of polymorphic codon 84 allele of checkpoint kinase 2 2005
real-time PCR analysis of *N*-acetyltransferase *NAT1* allele polymorphism 1405
steroid hormones
modulation of expression of cytochrome P450 in male hamster reproductive tract and leiomyosarcomas 763
stomach cancer
alcohol dehydrogenase and aldehyde dehydrogenase gene polymorphisms in Japanese alcoholics 433
strawberries
inhibition of tumorigenesis in rat esophagus 441

sulfur mustard
induction of DNA damage, repair in mammalian cells measured by host cell reactivation assay 661

T-cell immunity
no involvement in resistance of Copenhagen rats to hepatocarcinogenesis 357
tachypyridine
mediation of p53-independent apoptosis 1607
tamoxifen
DNA adduct formation and mutant induction in Sprague–Dawley rats 1307
immunohistochemical localization and semi-quantitation of hepatic DNA adducts in rats exposed orally 1693
understanding the genotoxicity, commentary 839
telomerase
activation in urethane-induced A/J mouse lung tumour development 751
terminal transferase-dependent PCR
sequence-specific detection of aristolochic acid–DNA adducts in human *p53* gene 133
tetrachloro-1,4-benzoquinone
induction of oxidative damage 627
tetrachlorohydroquinone
induction of DNA damage in human HeLa S3 tumour cells 635
induction of oxidative damage 627
12–tetradecanoylphorbol-13-acetate
phosphorylation of connexin43 and inhibition of gap junctional intercellular communication in exposed R6 fibroblasts 221
tetradecylthioacetic acid
inhibition of growth of rat glioma cells via PPAR-dependent and PPAR-independent pathways 1747
3,4,5,4′-tetrahydroxystilbene
differential induction of p53 and Bax gene expression 321
thyroid cell transformation
HMGI-C gene expression not required *in vivo* 251
thyroid tumours
initiation by *N*-bis(2-hydroxypropyl)nitrosamine, promotion of development by xylazine in rats 613
tobacco smoke
CYP1A1 polymorphism and risk of lung cancer, case–control study in China 11
patterns of p53 G→T transversions in lung cancer, commentary 367
synergistic mechanisms in carcinogenesis 1903
tongue carcinogenesis
induction by 4-nitroquinoline 1-oxide, protection by xeroderma pigmentosum group A gene action 567
TP53
role in repair of *N*-(deoxyguanosin-8-yl)-4-aminobiphenyl adducts in transitional cell carcinoma of the urinary bladder 147
***TP53* tumour suppressor gene**
association of G:C→A:T mutations with promoter methylation of O^6-methylguanine-DNA methyltransferase in astrocytomas 1715
transforming growth factors
cytostatic effects of 3,3′-diindolylmethane in endometrial cancer cells result from estrogen receptor-mediated increase in expression of transforming growth factor α 1809
induction of Smad signaling, cell cycle arrest and apoptosis in hepatoma cells by transforming growth factor-β1 447
role of transforming growth factor α in preferential growth of preneoplastic rat hepatocytes 1247
transitional cell carcinoma
role of *TP53* in repair of *N*-(deoxyguanosin-8-yl)-4-aminobiphenyl adducts in the urinary bladder 147
trichloroacetic acid
effect of chloroform on hypomethylation and promotion of liver and kidney tumours in mice 1511
***Trp53* locus**
loss of heterozygosity frequency in p53-deficient (+/–) mouse tumours 99
TRPM-2
up-regulation during sex-hormone-induced prostate carcinogenesis in the Noble rat 965
Trypanosoma cruzi
association of chronic infection with colon cancer 737
tumour biology
constitutive expression of interleukin-8 by Mutatect cells 243
tumour necrosis factor α
no requirement of hepatocellular proliferation in response to a peroxisome proliferator 1843
not required for WY14,643-induced cell proliferation 381

UDP-glucuronosyltransferases
contribution of UDP-glucuronosyltransferase 1A9 to CYP1A2-mediated genotoxicity by aromatic and heterocyclic amines 943
N-glucuronidation of 2-amino-1-methyl-6-phenylimidazo[4,5-*b*]pyridine and *N*-hydroxy-PhIP 1087
uracil incorporation
no alteration by C677T polymorphism of methylenetetrahydrofolate reductase in primary human lymphocyte DNA *in vitro* 1019
urethane
induction of A/J mouse lung tumour development, telomerase activation, *p53* mutations 751
urinary benzene
biomarker of exposure among occupationally exposed and unexposed subjects 279
uterine leiomyoma
protective effect of pregnancy on development 2049
UV carcinogenesis
prevention and therapeutic effect of difluoromethylornithine in SKH hairless mice 83
UV radiation
high efficiency of 5-aminolevulinate photodynamic treatment 879
increase in S phase delay in xeroderma pigmentosum variant 233
induction of cell-cycle arrest at late G_1 in mammalian cells, involvement of p53 573
induction of DNA incision and proliferating cell nuclear antigen recruitment in repair sites of ovarian carcinoma cells 1971
induction of oxidative stress, inhibition by (–)-epigallocatechin-3-gallate in human skin 287

vitamin D receptor
characterization of knockout mouse as a model of colorectal hyperproliferation and DNA damage 1429

WB-F344 hepatic epithelial stem-like cells
aberrant cell cycle checkpoint function 1257
Western-style diet
induction of benign and malignant neoplasms in the colon of normal C57B1/6 mice 1871
wheat germ extract
inhibition of experimental colon carcinogenesis in F344 rats 1649
WY14,643
induction of cell proliferation, tumour necrosis factor α not required 381

xeroderma pigmentosum
increase in S phase delay in UVC-irradiation variant 233
protection against tongue carcinogenesis by group A gene action 567
XPD
polymorphisms in exon 10 and 23 and DNA repair in human skin *in situ* 1185
polymorphisms of DNA repair gene, correlations with risk of basal cell carcinoma 899
***XPD* polymorphisms**
nucleotide excision repair and genetic predisposition to melanoma 403
XRCC1/XRCC3
association of amino acid substitution variants of *XRCC1* with ionizing radiation sensitivity 917
association of DNA repair genes:smoking and ^{32}P-DNA adducts in a sample of healthy subjects 1437
xylazine
promotion of development of thyroid tumours in rats 613
